

SKUTT KILNS 2

12/15/19

KM Series. The KilnMaster line of kilns gives you two ways to achieve precise firings time after time. Cone Fire Mode uses sophisticated software to run preset programs which are based on the Speed and Cone Value you enter. The Cone Fire Mode even calculates the perfect ending temperature based on how fast or slow the kiln is firing. Ramp/Hold Mode lets you design and store your own firing programs of up to eight segments. You are in total control of the heating and the cooling rates. Both programming modes offer the ability to Pre-Heat, Hold at peak temperature, Delay firings, set Temperature Alarms, Review programs, and View program status.
