Stackable Electric Series (1818T)

OLYMPIC KILNS

This is an example of one type of kiln available for this company. Please call about a complete listing of all models available.

Stackable Electric Series. Easy to Operate – Electronic controller provides automatic programming for cone firings and counterweight lid system provides ease in opening and closing kiln lid. Easy to Identify – Olympic models are named by their inside dimensions primarily (width and depth) and additional letters to the name provide meaning with H for high fire; E, electronic control; For kilns equipped with kiln sitter and limit timer, Easy to Maintain – Electronic controllers are component based and replacing parts is simple and quick to do. Easy to Afford – Make your investment in kiln equipment count- Olympic Kilns is near the raw materials (kiln firebrick) and the savings we receive by not having to ship raw materials across country are passed onto you, By the Way, We Still Make Kilns with Kiln Sitters Too! Your Choice!
